

DECLARACIÓN DE ÉTICA PROFESIONAL

I, _____, with identity number No. _____, of nationality _____ author of the article: _____, declare that:

- 1. Originality and plagiarism:** My submitted manuscript is an original work that does not contain parts of other authors' works or fragments of works already published by the authors. Furthermore, it confirms the veracity of the data, that is, that the empirical data have not been altered to verify hypotheses.
- 2. Multiple and/or repetitive publications:** My article has yet to be published in another journal, database, newspaper archive, library, or repository.
- 3. List of sources:** I correctly indicate the sources and contributions mentioned in the article.
- 4. Authorship:** I guarantee the inclusion of those who have made a significant scientific and intellectual contribution to the conceptualization and planning of the work, the interpretation of the results, and its writing. At the same time, I prioritize the authors according to their level of responsibility and involvement.
- 5. Conflict of interest and disclosure:** I declare that no conflicts of interest may have influenced the results obtained or the proposed interpretations. Additionally, I indicate any funding from agencies and projects from which the research article arises.
- 6. Approval of the institution's Ethics Committee:** This research has been reviewed and approved by the Research Ethics Committee, following the ethical standards and guidelines established for the participation of human beings. All participants have been informed of the objectives and procedures of the study, as well as the possible associated risks and benefits, guaranteeing their right to withdraw at any time without repercussions. Written informed consent has been obtained from all participants, ensuring confidentiality and responsible management of the data collected. The approval of the institution's Ethics Committee certifies that this research complies with the fundamental ethical principles, ensuring respect and protection of the rights and well-being of the participants.
- 7. Errors in published articles:** If I identify an error in the article, I notify the journal editors and provide them with all the necessary information to list the pertinent corrections at the bottom of the article.
- 8. Responsibility:** I accept responsibility for what has been written and undertake to make the necessary corrections recommended in the peer review, considering the different currents of knowledge in a plural way.
- 9. Use of artificial intelligence:** I declare that, yes ☐ or no ☐ generative artificial intelligence tools were used, their use was for technical support and did not replace authorship or critical thinking in the article. Their use has been indicated in the manuscript, and I assume full responsibility for all content presented, as stated in the Heredia Declaration.
